SKILLS

- C++
- Unity
- EnTT
- C#
- Quest Headset
- CI/CD
- Unreal Engine
- Vulkan
- Network multiplayer

ACADEMIC EXPERIENCE

Lead Developer

July 2026 - August 2026

Is There A Doctor on the Plane??, Open Portfolio Course, Full Sail University

- Crafted a VR simulation game in Unreal Engine for use with Meta Quest, where players decide how to help a plane passenger experiencing an emergency through speaking with three non-player characters and completing medical tasks.
- Constructed a 10+ tier decision tree for patient interaction, crafted a physical exam and two other mini-games including grabbable objects, built the UI system, via self-conceived C++ base classes, and drafted network multiplayer level.
- Integrated patient's spouse into flow of patient interaction including 3 reactions to patient's condition after receiving feedback encouraging involvement of additional NPCs.

Team Leader

March 2026 - April 2026

Smashteroids!, Project and Portfolio V Course, Full Sail University

- Headed 2D retro shooter project, where 1 or 2 players control a spaceship through three levels of intense combat with alien-type spacecrafts on the backdrop of a futuristic gameshow.
- Generated the game engine using EnTT, Vulkan and C++, incorporated 4+ powerups through an Entity-Component System design, programmed artificial intelligence states for 3 bosses, and practiced CI/CD using Butler, Itch.io and Git Actions.
- Bolstered game options with a hyper-speed mode after instructor comment wishing for faster player movement, and integrated a second gameplay accelerator in the form of a sprint bar.

Team Leader

November 2025 - December 2025

Alien Vs Kid, Project and Portfolio III Course, Full Sail University

- Formulated whimsical 3D first-person shooter, where player must fight off alien invaders and robotic soldiers over 5 levels including the player's school and hometown, culminating in a grand showdown on the alien mother ship.
- Programmed dozens of C# scripts for Unity game engine to actualize powerups including a jetpack and anti-gravity boots, laid out five levels, and realized objectives including finding hiding classmates and escaping an alien in hot pursuit.
- Managed team of six developers by coordinating standups, updating Trello page regularly and compiling backlog of tasks distributed to teammates.

EXPERIENCE

Medical Review Officer

October 2024 - Present

First Advantage, Remote

- Act as Medical Review Officer (MRO), a licensed physician responsible for receiving and analyzing laboratory results generated by an employer's drug testing program and evaluating medical explanations for certain drug test results.

Primary Care Physician

August 2023 - October 2024

VIP Care, Rockledge, FL

- Served 100+ Medicare and Medicare Advantage beneficiaries by providing comprehensive preventive and chronic care management, as well as same-day, urgent care services and virtual appointments for established patients.

Public Health Chief

July 2018 - June 2022

U.S. Army, Fayetteville, NC/Columbia, SC

- Managed team of 25 professionals in public health department, and provided health care to 300+ soldiers in unit.
- Advised command teams, including 1 general, on health related topics in order to maintain force readiness.

Preventive Medicine Resident

July 2015 - June 2018

Walter Read Army Institute of Research, Bethesda, MD

- Selected to present 1 research paper at American College of Preventive Medicine Conference in May 2018.
- Recruited for 3-person team of medical scientists to contribute 1 week of epidemiology instruction to public health officials in Eastern European country.

Science Teacher

August 2004 - June 2011

Hillsborough, Pasadena and South Pasadena School Districts, FL and CA

- Educated 500+ middle school and high school students in biology, chemistry and physics.

Video Game Reviewer

June 1999 - December 2003

St. Petersburg Times and Amazon.com, FL and Remote

- Authored 50+ game reviews and electronic entertainment-related articles.
- Covered industry events including E3 twice and CES once, and traveled to Japan to report on video game culture.

EDUCATION

Bachelor of Science in Game Development (B.S.)

October 2026

Full Sail University, Winter Park, FL

- Won team award for World Building at Unreal Fest Game Jam 2025 and participated in two other campus game jams.

Masters of Public Health (M.P.H)

June 2017

Uniformed Services University, Bethesda, MD

- Mentored team of medical students engaged in art therapy alongside disabled military veterans.

Doctor of Medicine

May 2015

Florida International University, Miami, FL

- Finished #3 in class. Accepted in Preventive Medicine residency program at Walter Reed Hospital in DC.
- Led team of 15 medical students as pioneer of FIU College of Medicine art show, raising \$10,000 for mammograms for underserved women.

Bachelor of Science in Journalism (B.S)

June 1999

University of Florida, Gainesville, FL

- Authored 5+ featured articles for the Independent Florida Alligator student newspaper.
